In one very large section of the country unrest and labor troubles have not as yet appeared, at least to such an extent as seriously to impair production or to affect efficiency. For throughout the entire Northwest, that great district of which Minneapolis is the commercial and financial center, manufacturing establishments are reported to be carrying on a business far greater than was looked are reported to be carrying on a business far greater than was looked for after the armistice was signed. Business is excellent. Prices though high are reasonably high and the entire district seems to be almost entire district seems to be aimost entirely free from labor troubles. Apparently the radical agitator has not as yet reached that district al-though something like socialism was established in North Dakota and according to recent reports is likely to be speedily disestablished. For there has been an object lesson there through the failure of the Central

Bank and through the necessity of making good the losses to the de-positors by exacting taxes from the positors by exacting taxes from the entire community.

Labor is very highly paid in the Northwest and the employes seem to be entirely satisfied with their conditions. They are not only gaining earnings which two or three years ago would have been deemed impossible but it has been observed that they are spending their earnings to such an extent that retail business is without precedent.

In addition to the laborers who without going through any red

In addition to the laborers who work with their hands the clerks and others whose pay is called salaries have been recognized as deserting increased payment. So that the reports come to New York that the rates of pay in the salaried class have been increased almost as greatly as has the rates in the day ware ly as has the rates in the class.
